Your assessment if the bond satisfies the requirements of the School and Institutional Trust Lands Administration. Could you please send me copies of the NOIs.
Thanks, Will Stokes

Will,

I have received two new NOI for:

American Trilobite Suppliers Inc.
Las Vegas, NV 89178

Owner : Jacob Skabelund

The mines are: Marjum 1 with a state mineral lease: ML49599
Red Wheeler Mine with a state mineral lease of 51687

The NOI indicates that both operations will be very small, less than a 1/2 acre. The will be mining for trilobites. The operations will have some machinery, but mostly hand digging. I proposed a \$7400 bond for 3 years for each mine.

I would like SITLA's concurrence on that amount, before I finalize the bond letter to them. If you need any more information, please feel free to contact me.

John Rogers
